[Wilmington Pike Improvements](#). Construction is underway on a new, northbound lane starting near the Home Depot entrance on Wilmington Pike and extending northward to Dille Drive, the main entrance to Cornerstone of Centerville. Work is anticipated to be completed in late June 2015. NOTE: ONE NORTHBOUND LANE IS CLOSED BETWEEN I-675 and FEEDWIRE ROAD UNTIL THURSDAY, JUNE 4.

Later this summer, ODOT will initiate a project to reconfigure the left turn lanes under the I-675 overpass on Wilmington Pike. Left turn lanes will be lengthened to provide additional capacity for vehicles accessing I-675, both north and south. Work will be completed by December 1, 2015.

Funding for these projects comes from a variety of sources including the City of Centerville, Ohio Public Works Commission, Greater Dayton RTA, the Federal Highway Administration and dollars provided via tax increment financing (TIF), generated by the new building values within the Cornerstone of Centerville.

Cornerstone of Centerville

Cornerstone of Centerville North is a 150-acre development that will provide our region with new shopping, dining and service options, professional offices and upscale apartments along with green space featuring a park and amphitheater.
